ENGINEERED IN GERMANY – MADE IN AUSTRIA

AUSTRIA
OBDACH

QUALITY FOR LIFE AL-KO is proud to champion products carrying the "Made in Austria" label. It's here, in tranquil Obdach in Styria, where we produce most of our garden tools, which are designed in the Swabian region of Bavaria. With the flexibility and security of an owner-managed company, our goal is to meet the requirements of our customers every time.

THE HIGHEST EXPECTATIONS With typical German efficiency, our research and development engineers create pioneering garden tools from hundreds of individual parts. Materials of the highest quality, ingenious technology, perfect ergonomics and a sure feel for form and detail are the unmistakable hallmarks of our garden tools. The rigorous quality requirement that characterises the AL-KO brand is guaranteed through our comprehensive range of technologies that is consistently designed and implemented by AL-KO development engineers, designers and technicians – from the initial design and prototype construction right through to the end product.

AL-KO GARDENTECH MAKE LIGHT WORK OF ENJOYING YOUR GARDEN

Technological progress is unstoppable – new and innovative technologies are appearing each and every day with the intention of making our lives easier and more fulfilling. Which of these new developments are the most interesting to garden lovers? How can I optimise working on my garden while making gardening much easier? These are questions for which AL-KO Gardentech can offer effective and sustainable solutions. Our central focus has always been the needs of users, who want to enjoy their garden to the fullest – meeting their requirements has always been our highest priority.

At AL-KO Gardentech, our goal is to allow the technologies of the future to become a reality today, with smart, digital and battery-powered gardening solutions. Driven by our passion for innovation, alongside our sense of responsibility for people and the natural world, this pursuit has resulted in highly convenient and incredibly efficient gardening

tools. Whether it's manual lawnmowers, robotic lawnmowers, water pumps, soil working equipment or tools for hedgerow care and tree maintenance – our range is extremely versatile and is sure to have the right solution for every gardening task. We are privileged to be able to assist you in your gardening throughout the year, and we hope some of our smart solutions will surprise you!

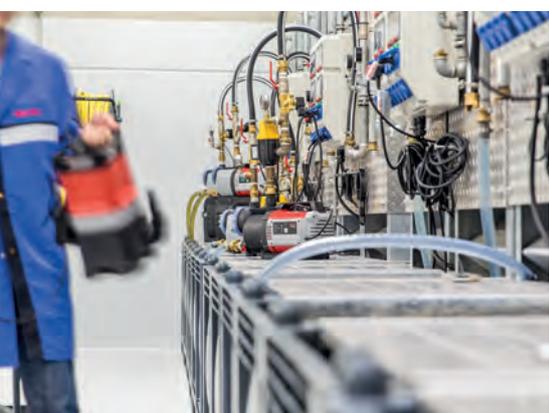

Have fun browsing and discovering – and of course when you are putting smart solutions into practice with your AL-KO garden tools.

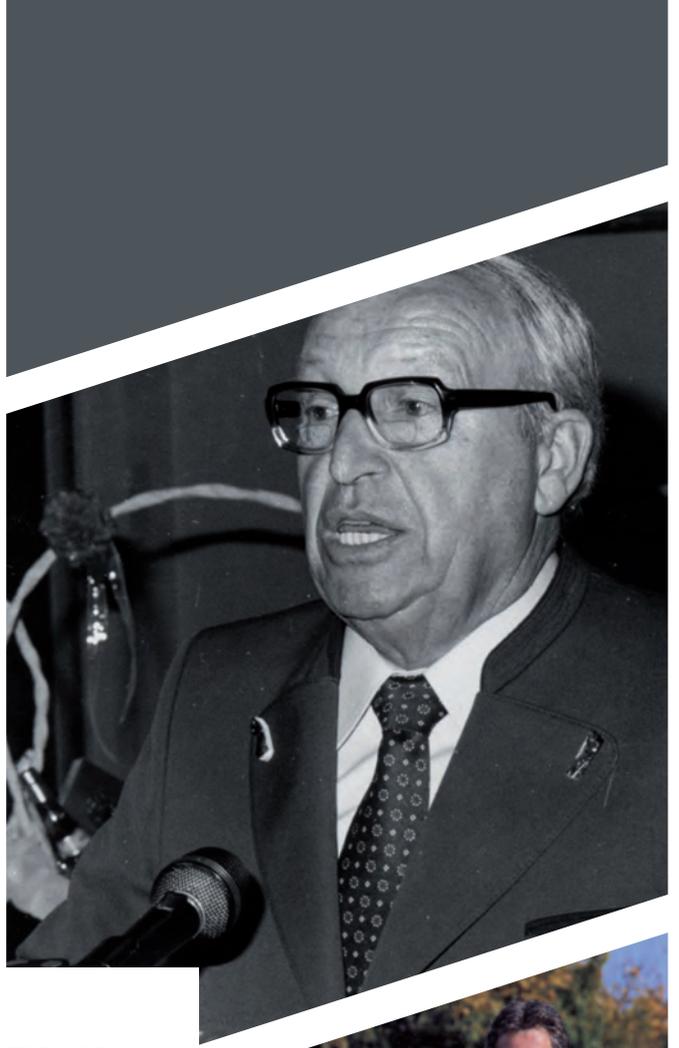

Peter Kaltensadler
CEO of AL-KO KOBER SE

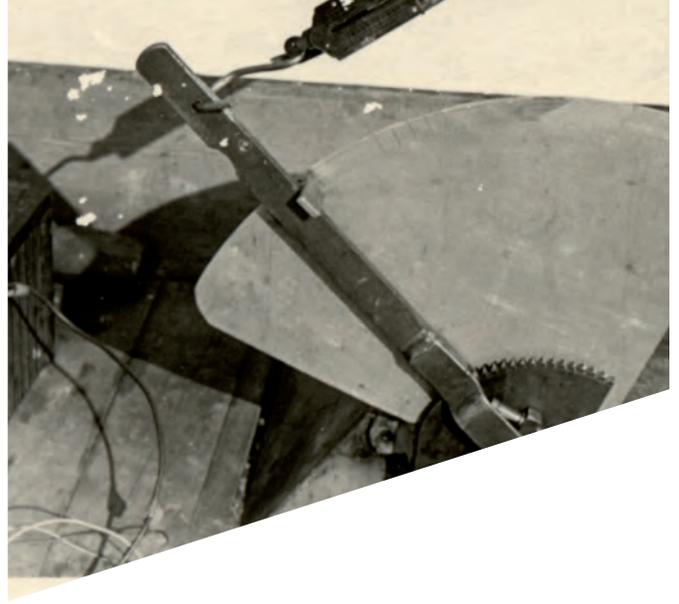

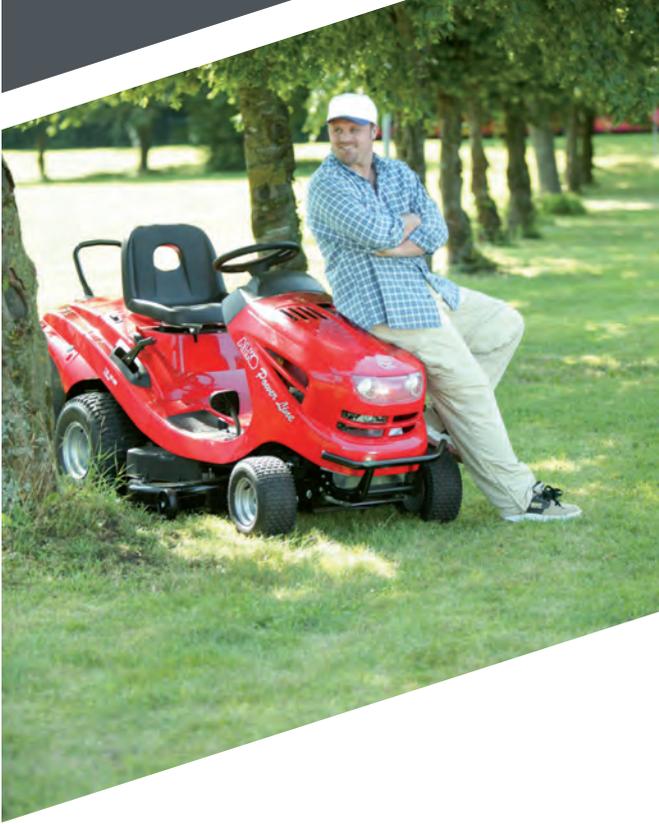

At the company's Technology Centre at its facility in Kötz, the innovative AL-KO gardening appliances are subject to rigorous testing.

FOUNDED IN
1931

MEMBER OF PRIMEPULSE

NOW PART OF THE INTERNATIONAL PRIMEPULSE GROUP.

With business areas encompassing gardening equipment, air technology and automotive products, the AL-KO KOBER Group has become a global player amongst medium-sized enterprises in Germany. At the same time, the family-owned business has been operating in over 20 different countries around the world, maintaining its headquarters in Kötz, Bavaria.

The AL-KO KOBER GROUP is also part of the PRIMEPULSE investment group. This high-performance network includes around 60 different associate firms around the world. PRIMEPULSE pursues a long-term, value-based investment approach and acts as a strategic partner for its affiliated companies, giving them the support they need to achieve their growth ambitions.

SMART GARDENING IN 2020

INGENIOUS GARDENING SOLUTIONS

THE AL-KO SMART GARDEN: OUR MISSION TO KEEP YOUR GARDEN LOOKING FABULOUS

We offer sophisticated and intelligent solutions that will make tending to your garden a breeze.

Having your own garden is for many people an indicator of quality of life, since it provides a retreat away from the stress of everyday life. Gardening brings a lot of joy to many, especially when it's made more and more effortless through the use of intelligent solutions. This is precisely the vision embodied by our Smart Garden concept – to maintain your garden in all of its splendour whilst preserving the joy of gardening itself and eliminating unnecessary effort. Right from the beginning, we have developed our gardening tools with a high degree of care, creativity and technical perfectionism, making sure to anticipate the needs of users ahead of time.

Now, with the AL-KO Smart Garden, we are going a step further, combining our sophisticated gardening tools with intelligent, wide-reaching solutions for keeping your garden looking its best.

With the AL-KO inTOUCH Smart Garden app and our Smart Cloud, for example, you can optimise tasks, automate routines to suit your preferences, manage devices such as the Robolinho® W from anywhere, and get useful information relating to your devices and your garden. This saves not only effort and resources, but also your valuable time. In the following pages we will go through exactly how it works. For keeping your garden at its best, there's no smarter solution.

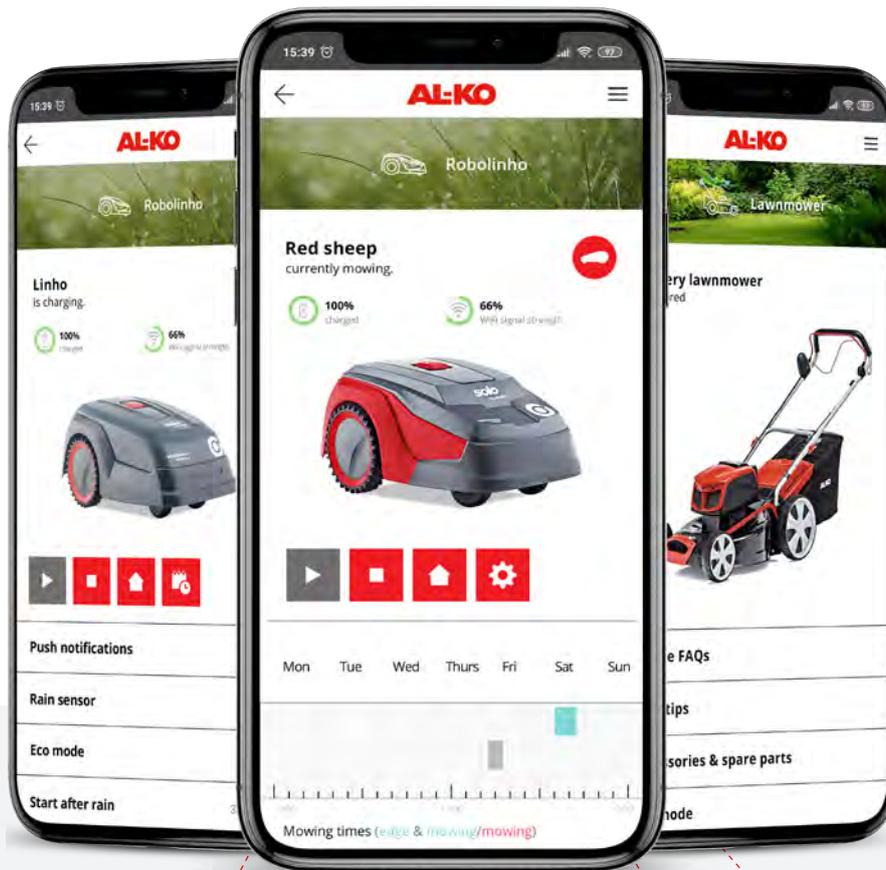

EVEN SMARTER GARDENING THANKS TO THE AL-KO INTOUCH SMART GARDEN APP

IN 2020, THERE WILL BE EVEN MORE FEATURES AND INTELLIGENT OPTIONS INTRODUCED TO MAKE YOUR GARDENING EASIER.

A MUST-HAVE FOR EVERY GARDEN OWNER:

SIMPLY SMART GARDENING WITH THE ROBOLINHO® W

ACHIEVE THE PERFECT GARDEN IN 3 STEPS
WITH THE ROBOLINHO® W:

1

Download the AL-KO
inTOUCH Smart
Garden app and
launch the machine
connection wizard.

2

Personalise your
Robolinho®

3

Enter your WiFi
details to establish
the connection
between your home
WiFi system and the
AL-KO Smart Cloud

AND YOU'RE DONE!

Harness the full digital potential of our sophisticated and powerful system – made easy thanks to the AL-KO inTOUCH Smart Garden app and our Smart Cloud. Here are some of the key features:

Use a nickname

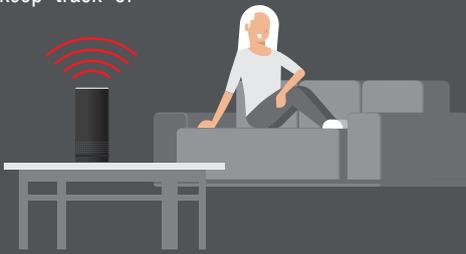

Add your Robolinho® W to your app and define a 'nickname' for it. Some of our favourites for your inspiration:

Robby, *Mow* Salah, Bruno and Sir Chopalot

Coming soon: Voice control*

You will soon be able to integrate your Robolinho® W with your Google Home or Google Assistant or Amazon Alexa, letting you customise, operate and keep track of your robot.

Configure and operate

Operate the Robolinho® W from anywhere with ease using the app, and easily configure lawnmowing times, the rain sensor, eco mode, starting points and more.

Smart servicing and repairs*

The Robolinho® W's error reports can be sent to the dealer using the app so that remote support can be provided (similar to reading the fault memory in a car).

The Robolinho® 'share' feature*

The Robolinho® W also has a 'share' feature, either for when you're going on holiday and want to share it with family or a neighbour or if you need it servicing and want to share it with your dealer, enabling virtual access to the device.

Integration*

Using the If This Then That (IFTTT) service, you can easily connect your appliance to other devices and services and automate and control them. And this even works for multiple different services:

| Synchronise your Robolinho®'s activities with a range of different IFTTT services, e.g. the weather service (do not mow the lawn during a storm), an irrigation service (only mow when the lawn isn't being watered) or even sensors such as cameras or presence detectors (do not mow if there's someone on the patio).

| Follow what your Robolinho® is doing using your online calendar.

And much more!

Stay informed at all times

The Robolinho® W reports its status to the AL-KO inTOUCH Smart Garden app and immediately provides guidance when your input is needed – through push notifications if desired.*

Security fit for the future

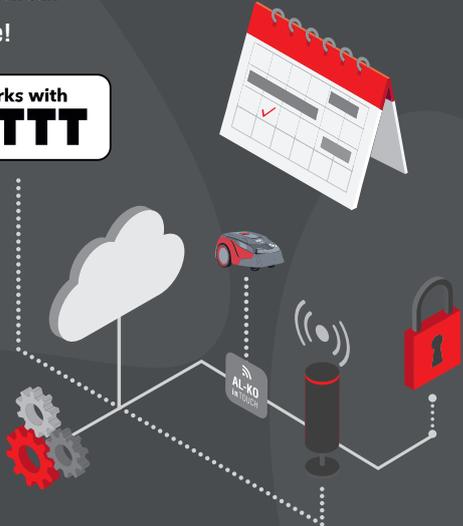

You can rest assured that the transfer of data between the Robolinho® W, the AL-KO inTOUCH Smart Garden app and the AL-KO Smart Cloud is absolutely secure and is compliant with the most stringent statutory data protection standards. All data transfer is in encrypted form, and the cloud data is hosted in Europe. None of the AL-KO gardening tools has a camera or microphone, so your privacy at home is secure and protected.

Updates Keeping your appliance fresh*

With our software updates, you can keep your Robolinho® W up to date at all times and benefit from new and improved features.

* Connection to the AL-KO Smart Cloud required

The battery fact sheet

State-of-the-art, high-performance batteries are used throughout our day-to-day lives – whether it's in our smartphones or laptops or in our digital cameras. But batteries are also increasingly used in gardening equipment, bringing many benefits. We have gathered here some of the most exciting facts in this area:

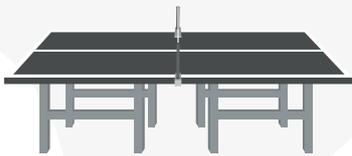

Pssst:

No motor noise

You can trim hedges with area of 720 m² on a single charge. This equates roughly to:

167
ping-pong tables

Battery

For the price of a pretzel, you can get

15–20

full battery charges

A single charge of the Energy Flex 5 Ah costs roughly 4 pence.

An Energy Flex battery can hold as much power as:

27.5 iPhone 6S batteries

Longevity

Easy Flex

Duration of half-time in a football

Energy Flex

Duration of a normal football match

Lithium-ion batteries are used in...

Smartphones

Electric cars and hybrid vehicles

Laptops

Cameras

E-bikes

Powered wheelchairs

A featherweight champion:

2

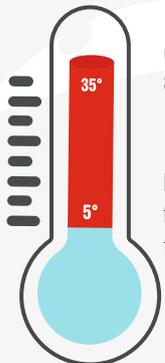

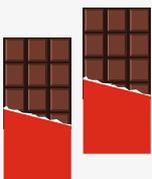

An Energy Flex battery weights just as much as a week old golden retriever

An Easy Flex battery weighs just as much as:

2

blocks of chocolate

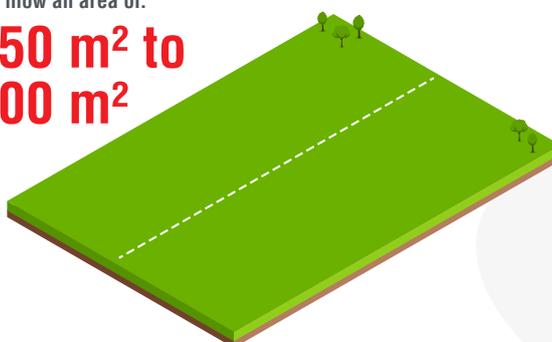

Good resistance to high and low temperatures

Between +5°C and 35°C is the ideal temperature range for lithium-ion batteries

Depending on the lawnmower model, with a single charge you can mow an area of:

250 m² to 500 m²

Charging up a completely dead 45 Wh battery (Easy Flex) requires as much energy as is needed to heat 0.45 litres of water in a kettle to 100°C.

BATTERY POWER FOR

EASY FLEX

AN EXTREMELY LIGHTWEIGHT BATTERY SUITABLE FOR MORE THAN A DOZEN DIFFERENT APPLIANCES

DISCOVER WIRELESS GARDENING PLEASURE!

The growing Easy Flex range now includes over a dozen appliances, which can be used with the same kind of battery.

Tip: Buy a lawnmower with two batteries and a double battery charger so that you can save money when purchasing the additional Easy Flex appliances without the extra battery.

PERFECTLY EQUIPPED

Products from the Easy Flex range will leave you perfectly equipped for small to medium-sized gardens.

BATTERY TECHNOLOGY

20 V & 40 V – THE PERFECT POWER SUPPLY FOR YOUR GARDEN

WHY WE SPECIFICALLY OFFER 20 V AND 40 V UNITS

Does high voltage mean high power? It sounds attractive, but unfortunately it's not right. The power of your gardening tool is not defined by the volts or ampere-hours alone. The volt is merely a way of measuring voltage – the tools' watt-hours specifications are much more important. Watt-hours are calculated by multiplying voltage with capacity (volts times ampere-hours) and describe the energy content and thus also the operating time until recharging will be necessary.

$$\text{VOLTS (V)} \times \text{AMPERE-HOURS (Ah)} = \text{WATT-HOURS (Wh)}$$

At AL-KO, we always keep our users' needs in view, so we have specifically decided to offer batteries with up to 40 V and up to 180 Wh, because these offer advantages that are perfectly matched with the requirements of your gardening work.

- | Optimal performance for professional demands
- | Long running times
- | Perfectly lightweight construction
- | Easy-to-handle size and dimensions

Higher voltages don't necessarily equate to higher usefulness. On the contrary, this can only be achieved by using more battery cells in the battery and is therefore inevitably associated with disproportionately higher weight, a larger, bulkier housing and significantly higher costs.

Our goal is to make gardening easier and more enjoyable for you, therefore only the best solution will do: smart battery technology offering up to 40 V, easy to use for pure gardening pleasure.

So we always have exactly the right type of drive and the perfect power supply for your needs.

WE HAVE THE RIGHT SOLUTION FOR EVERY NEED

SERVICE AND MAINTENANCE

Our expert service partners are ready to assist you with installation, repair, winter storage and tailored, all-year-round servicing.

SMART LAWCARE

A regular trim keeps the lawn in perfect condition at all times. Thanks to its compact design and intelligent control of the Robolinho®, it can deal with passages as narrow as 60 cm.

AT FULL CHARGE

When its charge is low, the Robolinho® automatically heads back to its base station. The lithium-ion technology in the batteries ensures rapid charging without any memory effects as well as a long service life of the powerful battery pack.

THE VERY BEST IN SAFETY

Five independent sensors, in conjunction with a sophisticated safety concept, ensure comprehensive operational safety at all times. During day-to-day operation, the Robolinho® identifies obstructions and reliably avoids them.

COMPATIBLE WITH IFTTT AND AL-KO INTOUCH

You can monitor and configure your Robolinho® easily using the AL-KO inTOUCH app and IFTTT. *COMING SOON - You will be able to control your Robolinho using Amazon Alexa

DOUBLE SHARPNESS ON BOTH SIDES

The two hardened blades are rotated alternately in clockwise and anti-clockwise operation, which keeps them sharp for twice as long. And by simply flipping over the blades, you can double their service life a further time. The unique double-bladed system with clearing blades ensures a perfect cutting technique.

WEATHER-INDEPENDENT

The built-in rain sensor gives you the choice: mow the lawn in the rain or take a break.

A HIGH-GRIP PROFILE AND OPTIMUM CLIMBING ABILITY

Thanks to the device's powerful drive system and high-grip wheel tread, the Robolinho® can master gradients of up to 45% with ease. The two drives, with the robust wheel tread, ensure small turning radii and excellent traction.

AUTOMATION AT YOUR FINGERTIPS

The clearly laid-out control panel makes programming of the Robolinho® simple. Simply enter the days and times you want the Robolinho® to be active, and you're done.

EASY TO INSTALL, YOU'LL BE UP AND RUNNING IN NO TIME

YOUR PATH TO FULLY AUTOMATIC LAWN CARE

NARROW PASSAGES

Narrow corridors of at least 60 cm can be managed by the Robolinho® without any issues.

PROTECT BEES

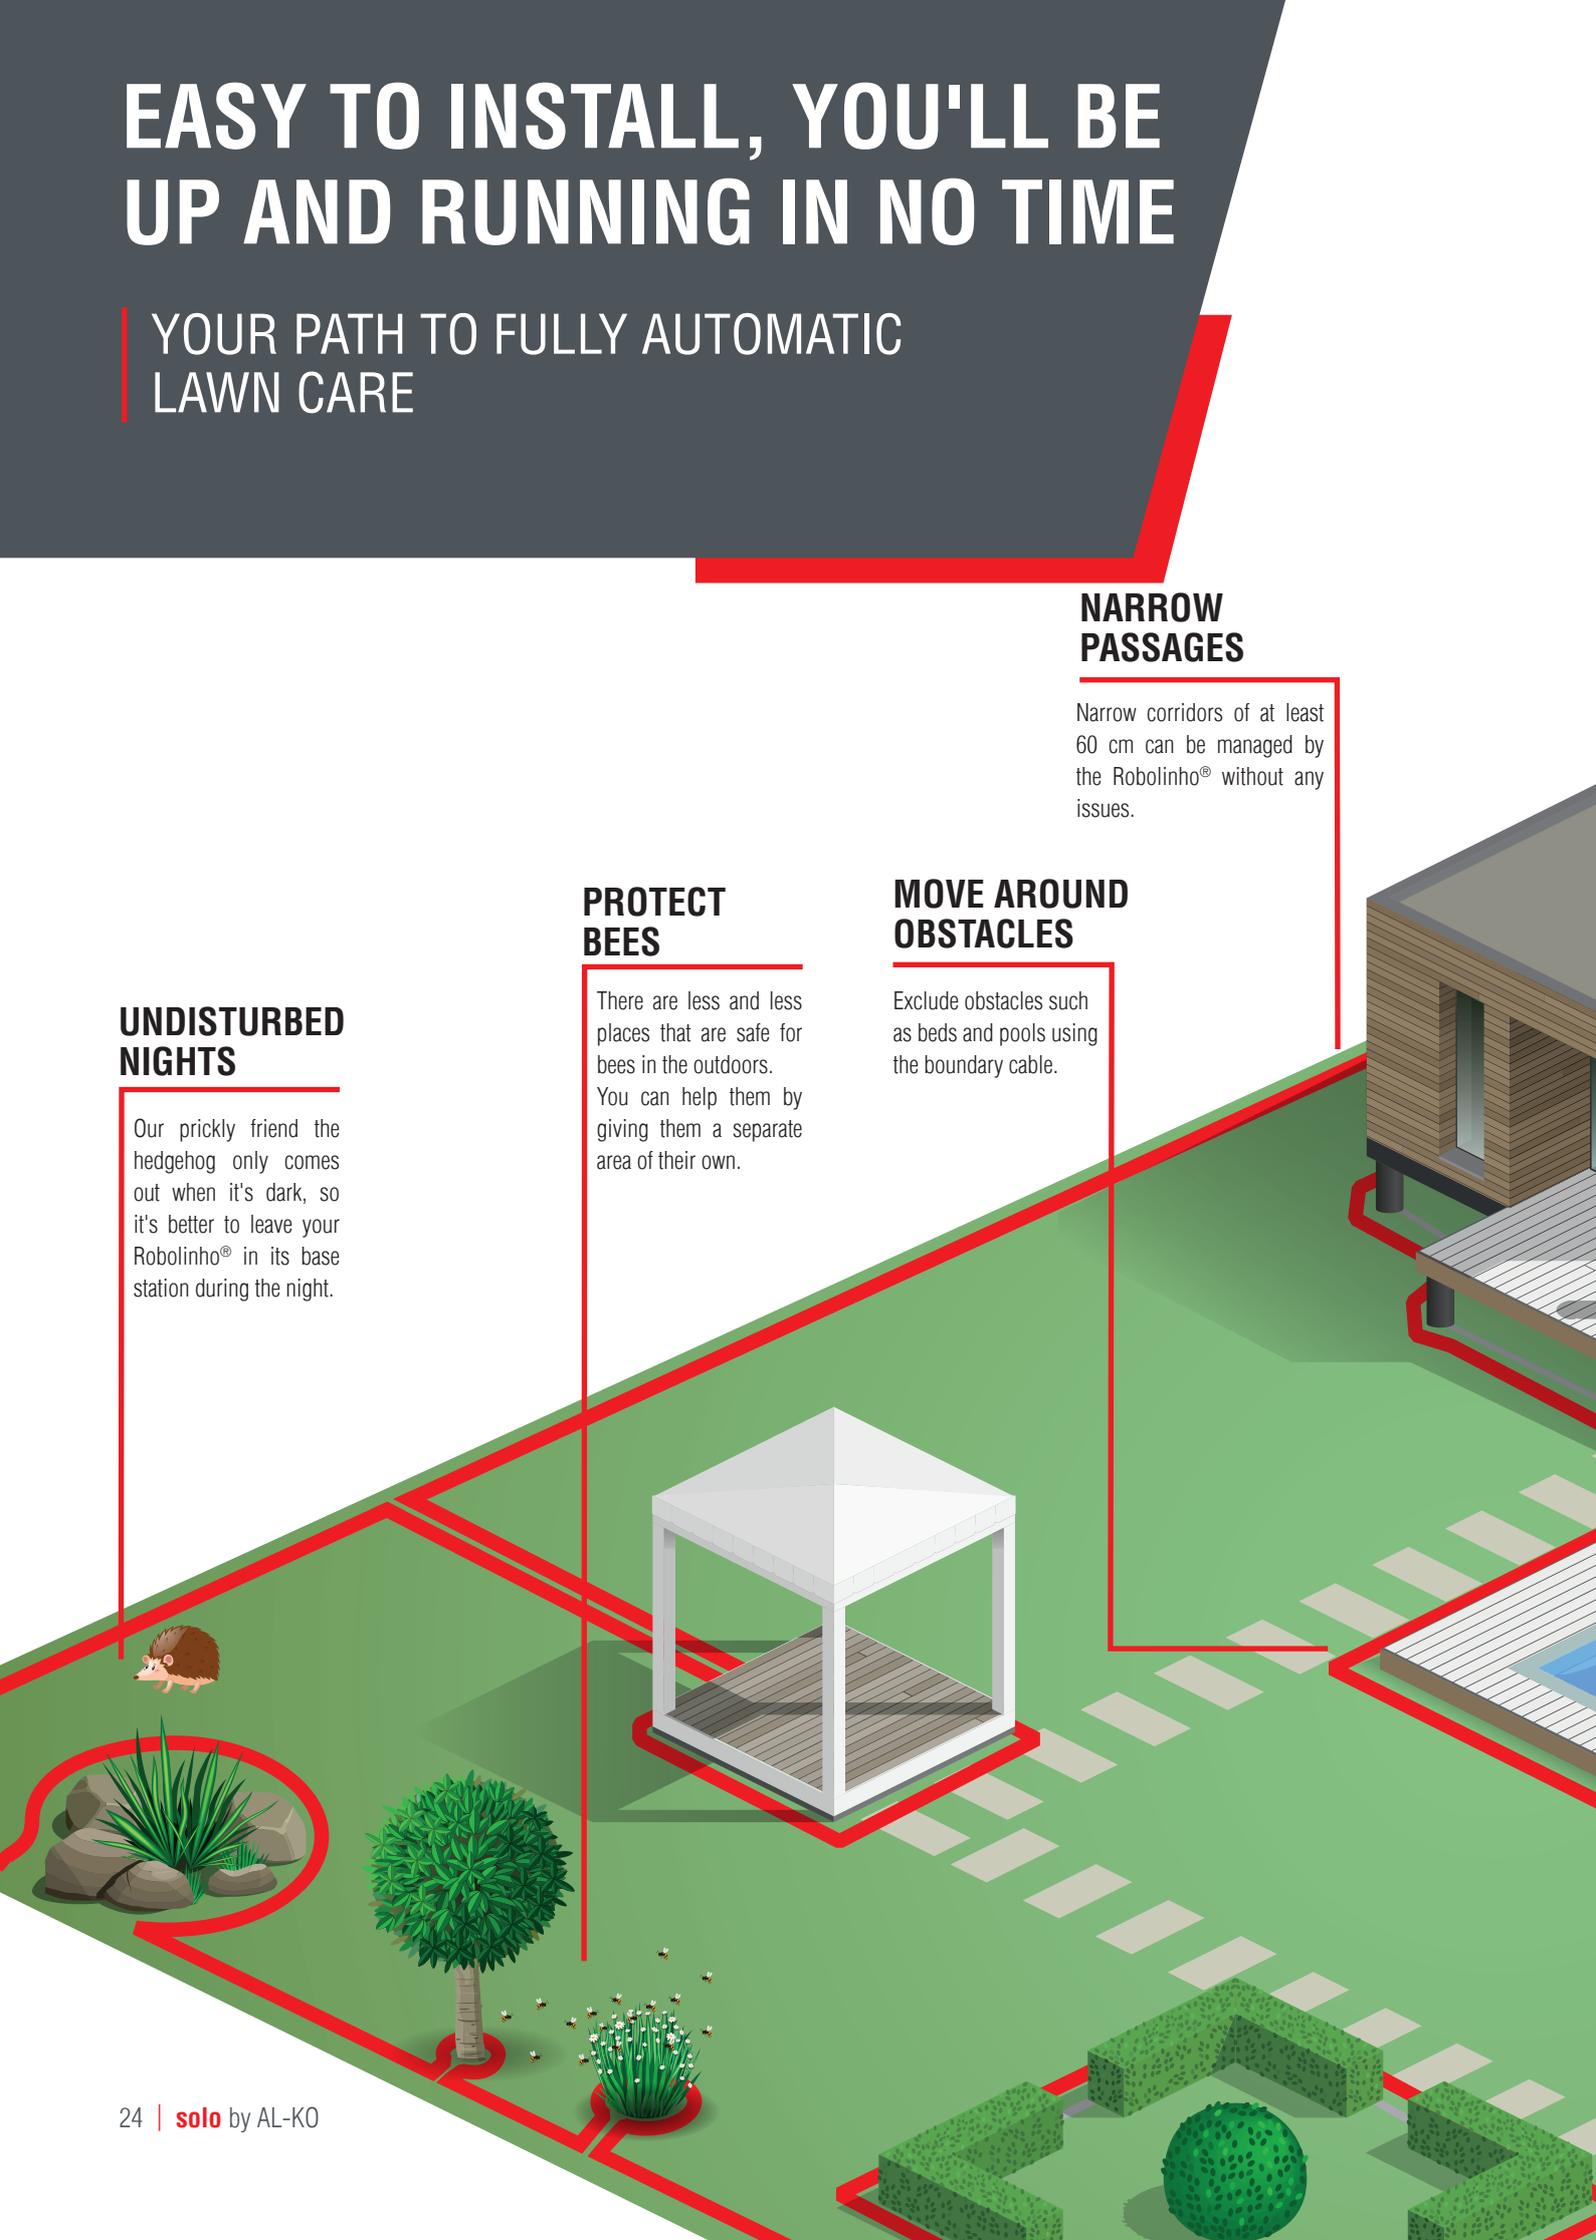

There are less and less places that are safe for bees in the outdoors. You can help them by giving them a separate area of their own.

MOVE AROUND OBSTACLES

Exclude obstacles such as beds and pools using the boundary cable.

UNDISTURBED NIGHTS

Our prickly friend the hedgehog only comes out when it's dark, so it's better to leave your Robolinho® in its base station during the night.

SPECIALIST SET-UP

The installation is even easier when you leave on-site installation to an AL-KO Robolinho® service provider. They would be happy to provide you with any help you need.

SMART GARDENING

Robolinho® connects to the AL-KO Smart Cloud over WiFi either directly with the inTOUCH app on your smartphone or through your WiFi home network over the internet. This allows you to monitor, configure and operate the Robolinho® from anywhere in the world, whether by using the AL-KO inTOUCH app, using Amazon Alexa, or using the Smart Cloud service. In addition, you can

benefit from regular software updates for your Robolinho® and the ability to share your Robolinho® with family, neighbours and your preferred solo by AL-KO dealer, so that they can monitor or provide support to your Robolinho® when you're not around.

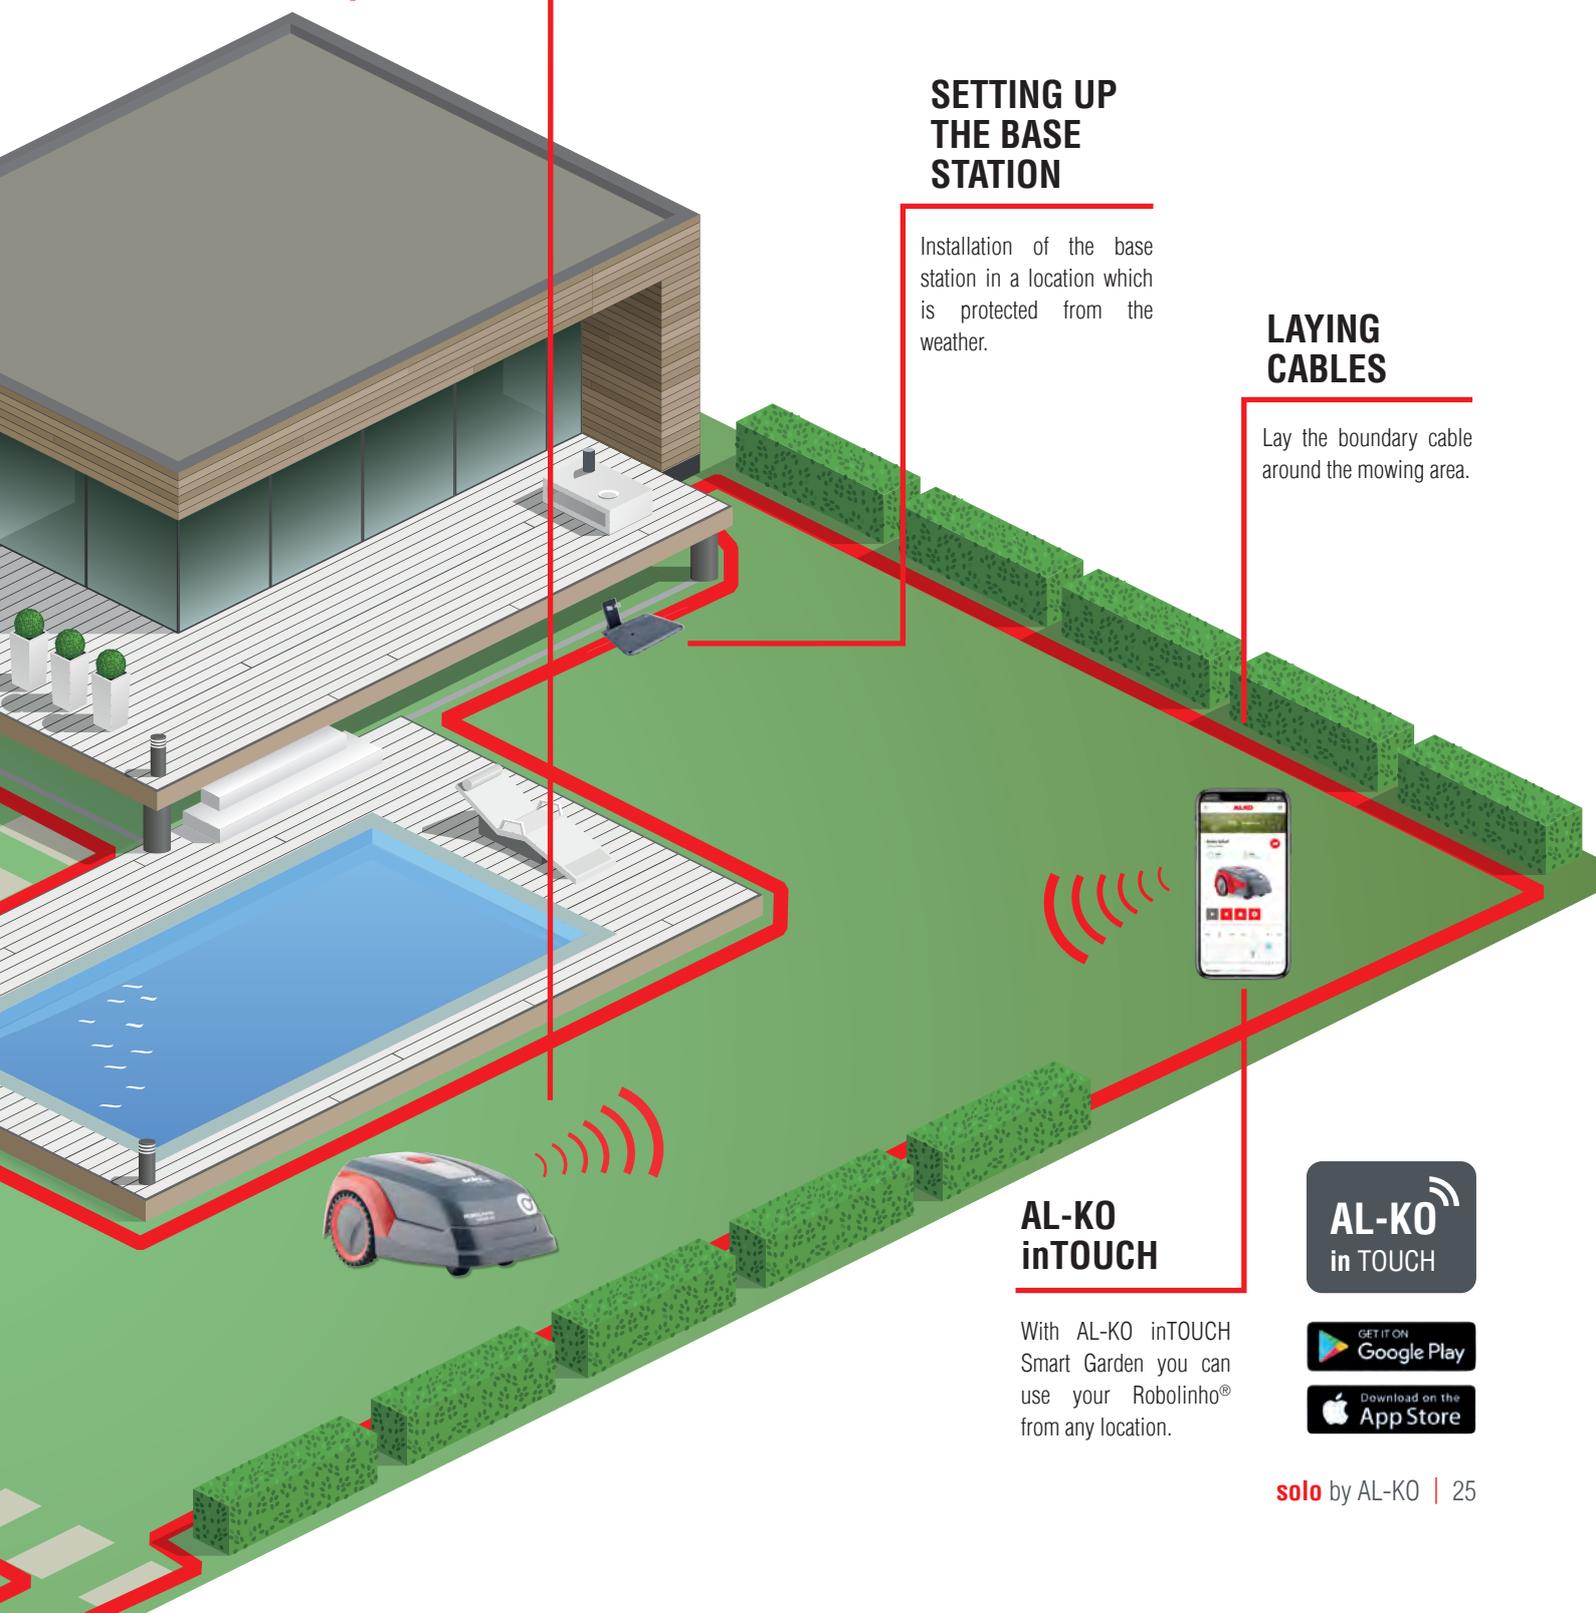

YOU CAN LEARN MORE ABOUT SMART GARDENING ON PAGE 8 ONWARDS.

SETTING UP THE BASE STATION

Installation of the base station in a location which is protected from the weather.

LAYING CABLES

Lay the boundary cable around the mowing area.

AL-KO inTOUCH

With AL-KO inTOUCH Smart Garden you can use your Robolinho® from any location.

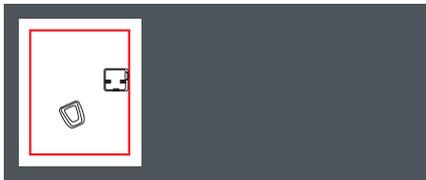

ROBOLINHO® ROBOTIC LAWNMOWER

ROBOLINHO® 500 E

- | Small, compact and agile
- | Gradients up to 45%
- | High ground clearance for effortless mowing in high, thick grass

For areas of up to 500 m²

YOUR BENEFITS AT A GLANCE

- | The Robolinho® devices are very quiet when in operation.
- | The Robolinho® devices are incredibly eco-friendly thanks to their low energy consumption.
- | The grass clippings don't have to be disposed of, and thus can be used as natural fertiliser (mulch).
- | It makes the grass thicker, stronger and more attractive.
- | Easy installation and reliability provided by easy-to-use user interface offers greater freedom.
- | A comprehensive safety system with several sensors ensures protection in all scenarios.

*The maximum area may be reduced by the layout of the garden as well as the number and size of the obstacles.

** incl. integration with the AL-KO inTOUCH app (available for iOS and Android), IFTTT

PATENTED FREE-WHEEL MECHANISM FOR PROTECTING THE TRANSMISSION UNIT

- | With this special mechanism, the forwards / backwards accelerator pedal is switched off while braking.
- | This protects the transmission and increases the machine's service life when the accelerator pedal is operated at the same time as the brakes.

T 13-93.7 HD

- | **Ideal for level lawns**
- | 93 cm mowing width
- | Foot hydrostatic with ergonomically placed pedals
- | Powerful 6.3 kW Briggs & Stratton engine
- | Effortless care for medium-sized to large lawns
- | The optimal pivot point in combination with the ergonomic telescopic lever ensure easy mechanical box emptying
- | Optional mulching kit

T 15-93.7 HD-A

- | **Extra power when mowing**
- | Great performance and value for money
- | Compact, entry-level tractor
- | 93 cm mowing width
- | Comfortable foot hydrostatic
- | Large fabric grass catcher with 220 l volume
- | Powerful AL-KO Pro engine with 7.7 kW power rating and OHV technology

REAR DISCHARGE TRACTOR

THE PERFECT COLLECTOR FOR YOUR MOWN GRASS

T 15-103.7 HD-A

- | **For large areas**
- | 103 cm cutting width
- | Powerful 7.5 kW AL-KO Pro engine
- | Ergonomic controls
- | Comfortable mounting and dismounting thanks to the low and accessible access point

T 16-93.7 HD V2

- | **A powerhouse for every kind of terrain**
- | 93 cm cutting width
- | Powerful, 2-cylinder, 9.6 kW Briggs & Stratton engine
- | Extensive range of accessories
- | Easy-to-dismantle mowing deck
- | An all-rounder in the summer when mowing the lawn and in winter when shovelling snow
- | Bright LED headlights

300-LITRE GRASS CATCHER BOX WITH GAS STRUT ASSIST

T 16-103.7 HD V2

- | **Workhorse with 2 cylinders**
- | 103 cm wide mowing deck
- | Low-vibration, powerful, 9.1 kW, 2-cylinder engine from Briggs & Stratton
- | Suitable for all terrains
- | New, torsion-resistant frame
- | Easy to manoeuvre
- | Easy-to-access controls
- | Bright LED headlights

THE INTEK MOTORS

Many lawn tractors are fitted with high-quality, air-cooled Intek engines from the US manufacturer Briggs & Stratton. That's because it's one of the best power units available on the market in terms of lawn tractors.

Thanks to cast-iron cylinder liners, pressure lubrication with oil filter, anti-vibration system, and state-of-the-art OHV technology with overhead valves, the series is extremely durable and reliable.

It also ensures excellent results in day-to-day demanding tasks.

THE NEW **HIGH GRASS MOWER DECK**

LESS IS MORE

**| LESS LAWNMOWING,
MORE BEES**

Bees are finding fewer and fewer places in the wild for shelter, yet they are considered the most important pollinators and are essential for a sustainable world. It is therefore our responsibility to do our part to protect these essential creatures. Believe it or not, your contribution to defending these useful insects can start in your own garden. Each additional flower in your garden not only makes your property look stunningly colourful, but also contributes to the survival of these bees. Moreover, if you choose to leave your grass long, this also creates a great habitat for these important creatures. Therefore, mowing less improves the ecosystem and helps protect our bees.

MINIMAL TURNING CIRCLE
FOR TOP MOWING RESULTS

HYDRO DRIVE THANKS TO HYDRO-GEAR

As one of its key features, our tractors include a high-quality Hydro-Gear® transmission and thus can ensure the very best driving experience in even the most difficult situations. The hydrostatic transmission from Hydro-Gear® was developed, tested and built to ensure reliable, quiet and yet extremely precise performance for years to come. The star feature of our two top models – the T20 and T23 – is the G700 transmission series. With its rugged cast aluminium housing and improved internal components, as well as solid

1" wheel shafts, the G700 offers the best performance in all situations, and over a long period of time. An external oil filter makes maintenance easier, while the integrated oil pump ensures that the main hydraulic elements are always supplied with sufficient oil to ensure smooth, low-noise operation with less wear and tear on the components. All in all, it's the best of the best.

- | Grass catcher box with integrated fill level indicator
- | **2INONE** function (mowing, grass-catching)
- | **3INONE** function (mowing, grass-catching, mulching)

BATTERY LAWNMOWERS

EVERYTHING UNDER CONTROL

You can check the battery's current charge level by simply pressing a button. Thanks to lithium-ion technology, it can be charged quickly at any time. A complete charge only takes about one and a half hours.

BE ON THE SAFE SIDE

To prevent the motor from starting unintentionally, all lawnmowers are fitted with a safety key. The motor will only start when you insert this key and turn it. After removing the key, you can walk away from the mower without any worries.

EASY HANDLING

You can achieve perfect mowing results with ease thanks to the central cutting height adjustment. You can select the right cutting height easily using an integrated lever.

- | **3INONE** function

SIMPLE TRANSPORT

The integrated carry handle makes transport easy. The grass catcher is easy to remove, and thanks to the folding handlebar the lawnmower can be stored away quickly and in a compact way.

MULCHING ON DEMAND

Just mount the mulching insert without the need for tools and work the fine grass clippings into the lawn as a natural fertiliser (40 E Comfort).

ADDITIONAL BENEFITS

- | Central cutting height adjustment
- | Height-adjustable handlebar for the 40 E model
- | Ergonomic handlebar with soft grip

PETROL LAWNMOWERS

CONVENIENT HEIGHT ADJUSTMENT

The central or individual wheel adjustment allows all models to be set to the desired cutting height in next to no time.

GETTING THE JOB DONE WITH EASE

The tyres on AL-KO petrol lawnmowers protect the lawn and ensure optimum mowing comfort. The drive of the XL/XXL rear wheels also guarantee the best traction on the lawn.

THE BEST RESULTS

Whether you prefer mowing and grass catching, mulching or side discharge, our innovative mower decks guarantees you the best lawncare results. Our extensive range of accessories offers the right solution for every need.

MAXAIRFLOW TECHNOLOGY

PERFECT AIR AND FLOW CHARACTERISTICS

MAXAIRFLOW
technology

HEIGHT MATTERS

Extra tall, extra large – that's the basis of MaxAirflow technology.

Thanks to the extra-high steel plate housing and the extra-large discharge channel, the airflow is increased by 42%.

So unlike standard lawnmowers, the grass clippings are not thrown at a low angle into the grass catcher, but rather in a high arc. This means the grass catcher box is effectively filled from the back, without the discharge channel becoming blocked.

For all models with the MaxAirflow logo

FULL BOX, FEWER STOPS

MaxAirflow technology means that the lawn clippings are thrown to the back of the grass catcher box, meaning it can be filled to the top and doesn't have to be emptied so often.

OPTIMUM GRASS CATCHING

The perfectly filled box also collects grass cuttings from the discharge channel thanks to the integrated box tongue.

NO MORE GREEN FINGERS

Thanks to MaxAirflow technology, it is possible to mow even long, damp grass, without leaving clumps behind on the ground or blocking the discharge channel. This way, you can avoid getting your hands dirty as well.

INNOVATIVE ELECTRIC STARTER

CONVENIENT START-UP
AT THE TURN OF A KEY

INSTART TECHNOLOGY *

A new generation of engines from Briggs & Stratton are used in our top-of-the-line lawnmowers complete with electric start. The energy required for starting is provided by a lithium-ion battery that charges in no time thanks to an external charger. A single battery charge is usually enough for all engine starts in a single lawnmowing season. Subsequent charges of 10 minutes apiece enables a further 20 engine starts. A full battery charge is enough to power up to 150 starts.

* not available for all lawnmower models

NO MORE OIL CHANGES

Thanks to the innovative design and optimised air cooling, Briggs & Stratton EXi and inStart engines use significantly less oil than comparable 4-stroke engines. Due to lower heat transfer, the lubricating properties of the oil also remain effective for longer, so you can top up the oil instead of changing it.

QUICK, RELIABLE START-UP

Once the lithium-ion battery is charged and inserted, all you have to do is turn the key switch to start the motor. So no more strenuous cord-pulling to start the engine, and re-starting the mower after emptying the grass catcher is child's play thanks to the electric starter.

COMPACT POWER PACK

Perhaps the best way of describing the powerful battery used with the engine is "small is beautiful". Its compact size means it can be removed and put back easily. Even after long periods without charging (e.g. in winter), you can start charging your battery up in just a few minutes and as frequently as you like.

MULCH LAWNMOWER

ECOLOGICALLY CONSCIOUS LAWNCARE THANKS TO ORGANIC FERTILISER

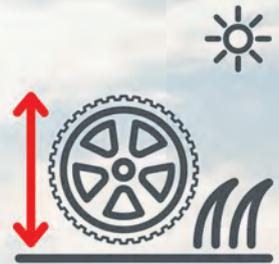

Mulch mowing and side discharge in one

Ecologically conscious lawncare thanks to organic fertiliser and thus no need to dispose of grass clippings

XL wheels – gentle on your lawn and featuring a sleek design

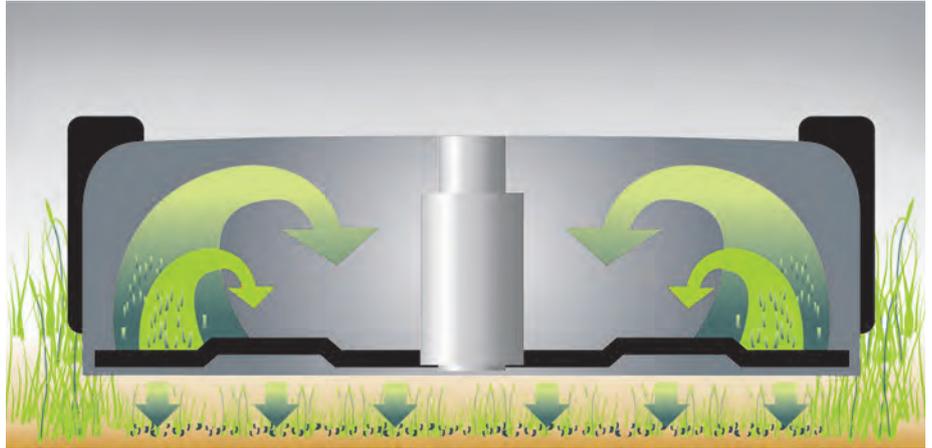

Side discharge

MULCH MOWERS

| ENVIRONMENTALLY FRIENDLY LAWNCARE

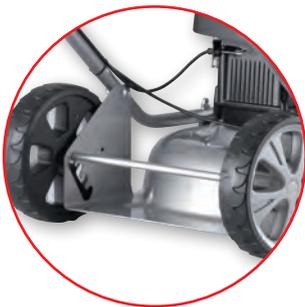

HOW DOES MULCHING WORK?

During mulch-mowing, the cut blades of grass are thrown upwards within the mower deck, finely shredded by a special blade and blown back onto the turf as a natural fertiliser – this returns natural nutrients to the lawn and protects it against drying out.

YOUR ADVANTAGES

- | XL wheels that are gentle on your lawn
- | Convenient cutting height adjustment
- | Ergonomic handlebar
- | **2INONE** function (mulch mowing and side discharge)

QUICK HEIGHT ADJUSTMENT

The cutting height can be changed on each axle quickly and easily. The full-width axles offer stability and perfectly straight wheel motion.

MULCHING OR SIDE DISCHARGE

If necessary, e.g. when the grass is very long after returning from holidays, or when working on pastures or orchards, the mulch mower can easily be converted to the side discharge function.

FRONT WHEEL DRIVE

The energy-saving alternative is useful primarily on hilly terrain. When manoeuvring, the front wheels can be lifted clear off the ground with the drive still activated, allowing the mower to be turned (SP-A model).

THE BIGGER, THE BETTER

The tyres protect the lawn and ensure optimal mowing comfort. The driven XL front wheels of the SP model also guarantee optimal traction on your lawn and help you get the job done with ease.

HAND LAWNMOWERS

THE PERFECT GOLF GREEN FOR AT HOME

Exceptional mowing results thanks to the 5 blades

Extraordinarily comfortable handling

Zero-maintenance and durable

Emissions-free, zero-noise, no exhaust fumes, no engine

YOUR BENEFITS

- | Lightweight, sturdy housing
- | High-quality, 5-blade mowing cylinder for a precise and accurate cut
- | Extremely manoeuvrable and very gentle on your lawn

HAND LAWNMOWERS

MANOEUVRABLE ON THE LAWN

The single-axle design of the AL-KO hand lawnmower ensures extreme manoeuvrability and also comfortably compensates for uneven ground.

SPECIAL CYLINDER

The high-quality 5-blade mowing cylinder made of hardened special steel ensures a perfect cut and uniform filling of the grass catcher box.

SIMPLE STORAGE

Thanks to the integrated quick-lock, the hand lawnmowers can easily be folded together to save space (only with Soft Touch 380 HM Premium).

Soft Touch 2.8 HM Classic

- | 28 cm cutting width
- | 150 m² lawns
- | Zero-contact, lawn-preserving blade technology
- | Lightweight and manoeuvrable – only 7 kg in weight
- | XXL wheels for high user comfort

Soft Touch 38 HM Comfort

- | 38 cm cutting width
- | 250 m² lawns
- | Zero-contact, lawn-preserving blade technology
- | Lightweight and manoeuvrable – only 7.9 kg in weight
- | XXL wheels for high user comfort

Soft Touch 380 HM Premium

- | 38 cm cutting width
- | 250 m² lawns
- | Zero-contact, lawn-preserving blade technology
- | XXL wheels for high user comfort
- | Incl. folding handlebar for compact storage

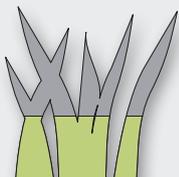

FUNCTIONAL DESIGN

Lightweight, robust housing with a sleek design and XXL wide tyres. The rubber bumper protects the housing from bumps and scratches.

HIGH-PRECISION TRIMMING

With a hand lawnmower, you can cut the grass blades as precisely as if you were using scissors. This is largely thanks to the cutting mechanism itself: the mowing cylinder and the lower blade do not come into contact, which means the mower is particularly gentle on the lawn.

SCARIFIERS

PERFECT PREPARATION FOR YOUR OUTDOOR SUMMER EXPERIENCES

Once a year,
but done right!

A practical solution – stowed
away quickly and easily

Lightweight
and comfortable

YOUR ADVANTAGES

- | Easy roller changing
- | **2INONE** function
(scarifying, grass catching)
- | **3INONE** function
(scarifying, aerating, grass catching)

SCARIFIERS

WHY SCARIFY?

In addition to regular mulching, lawns should always be scarified in the spring or autumn to allow the lawn to "breathe". The steel blades of the scarifier penetrate the turf and remove lawn thatch, moss and plant remains. After scarifying, the area should be fertilised directly, re-seeded and thoroughly watered.

SCARIFYING OR AERATING

The roller is easy to convert from a scarifying roller with 3-stage steel blades to an aerator roller with efficient steel spring tines – complete lawn care in one machine.

SCARIFIERS

SCARIFYING AND AERATING IN A SINGLE TOOL

Electric 38 E Combi Care Comfort

- | 38 cm scarifier working width
- | 800 m² lawns
- | 55-litre grass catcher box made from strong fabric
- | Height-adjustable handlebar
- | Easy-clean housing
- | **3INONE** function

Petrol 38 P Combi Care Comfort

- | 38 cm scarifier working width
- | 1200 m² lawns
- | 55-litre grass catcher box made from strong fabric
- | Height-adjustable handlebar
- | Easy-clean housing
- | **3INONE** function

ENERGY FLEX Battery SF 4036

- | 36 cm scarifier working width
- | 250 m² lawns
- | Height-adjustable, folding handlebar
- | Tool-free roller changing
- | **3INONE** function*

* optional aerator required

Batteries/charger

SCYTHER MOWERS

THE VERY BEST HANDLING ON ROUGH TERRAIN

Makes mowing easier even on rough terrain and tall grass

Height-adjustable and with vibration damping

Specially hardened, and therefore extremely durable, blades

BM 875 III	
Cutterbar	87 cm
For lawns of max. size	2000 m ²
Engine ccm / kW / rpm	B&S 625 EXi series 150 / 2.3 / 3200
Drive	1 forward gear (worm gear)
Tyre size (inches)	13 x 5.0-6
Track width	45 cm
Blade drive can be disengaged	✓
Approx. weight	52 kg
Art. no. / EAN no.	113 617 / 400 371 805 8536

BM 875 III scythe mower

- | Cuts grass as well as thick weeds
- | Universal in application and extremely manoeuvrable
- | Fitted with a moving grass deflector, stopping the build-up of grass
- | Infinitely variable outsoles
- | Specially hardened blades with edge protection and sliding cutting height adjustment
- | Powerful B&S engine

YOUR ADVANTAGES

- ✓ 1 FORWARD AND 1 REVERSE GEAR
- ✓ POWERFUL BRIGGS & STRATTON PETROL ENGINE
- ✓ BROAD PNEUMATIC TYRES FOR OPTIMAL TRACTION
- ✓ INFINITELY VARIABLE OUTSOLES
- ✓ MOVING GRASS DEFLECTOR FOR PERFECT DISCHARGE
- ✓ HEIGHT-ADJUSTABLE AND VIBRATION-DAMPING HANDLEBAR

MANOEUVRABILITY FOR A NATURAL GARDEN

- | In high-grass meadows and ecological natural gardens, machines such as this scythe mower, which can cut meadow grass just as well as thick, matted weeds, are in particular demand.
- | The moveable grass deflector and shorter distance between the wheel and the blades considerably improve grass depositing, while the enclosed drive system on the mower deck with its specially-hardened ESM blade and height-adjustable outsoles ensure a long service life.

SCYTHE MOWERS	5001-R II
Engine ccm / kW / rpm	B&S 625 EXi series 150 / 2.3 / 3,200
Cutting width	102 cm

Tyre size (inches)	13x 6.0-6
Weight	58.0 kg
Art. no. / EAN no.	127 469 / 400 371 805 8628

GRASS TRIMMERS & BRUSHCUTTERS

TAKING ON ALL TASKS

Whether trimming along a flower bed, a fence, a wall, or even underneath a garden bench, our grass trimmers provide the ability to complete all these tasks in comfort.

VERSATILE IN ALL DIRECTIONS

The ability to turn the trimmer head through 180° means that all lawn edges can be cut accurately. The telescopic aluminium shaft and the flexible handle (depending on the model) ensure the right length and working position.

COMFORTABLE TO USE IN ANY TASK

Our grass trimmers are equipped with loop handles. This provides maximum control when carrying out precise trimming work.

ELECTRIC GRASS TRIMMERS

GTE 350 Classic electric trimmer

- | Adjustable, aluminium shaft with telescopic section for easily adjusting the tool to the user's body height
- | A protection guard for protecting nearby plants and for maintaining a safe distance from walls

GTE 450 Comfort electric trimmer

- | 450 W power rating
- | Aluminium shaft with telescopic section
- | Option to adjust the trimmer head angle and protection guard

GTE 550 electric trimmer

- | 550 W power rating
- | Aluminium shaft with telescopic section
- | Option to adjust the trimmer head inclination and protection guard

HEDGE TRIMMERS

PERFECT IN FORM DOWN TO THE LAST METRE

High operating comfort thanks to the ergonomic controls

Perfect cutting results thanks to the diamond-sharpened blades

Highly sturdy and robust

HEDGE TRIMMERS

PERFECT CUT, AND PROTECTION

Sustainably sharp, diamond-ground blades ensure a clean cut. The safety guard protects the blade when cutting along ground and walls while the cover can also be used for storage on a wall.

RELAXED WORKING STYLE

Ergonomic controls and a perfectly balanced weight, allows for stress free working. And with the battery models which can be combined with the optional battery belt and adapter, you can get the job done in a relaxed way by doing away with cables.

BEST QUALITY

The high-quality plastic housing is highly sturdy and robust, thus guaranteeing that the hedge trimmer has a long service life. The weight has been distributed perfectly so that the hedge trimmers always sit perfectly in your hand.

ELECTRIC HEDGE TRIMMERS

HT 440 Basic Cut electric hedge trimmer

- | With cable strain relief
- | 440W electric motor
- | With built-in spirit level for the perfect cut
- | Impact protection & cover for the blades

MULTI-CUTTERS

1, 2 – done!

Thanks to the quick-change system, the blades can be changed within just a few seconds – without tools and without having to get your hands dirty.

GS 7.2 Li multi-cutter

- | Can be used for trimming grass and shrubs
- | Light and easy to manoeuvre
- | No memory effect – can be recharged at any time
- | Low battery self-discharge
- | Long service life
- | Includes a useful grass collector and charger

GS 7.2 Li multi-cutter	
Battery type	Lithium-ion (7.2 V / 2.0 Ah)
Shrub cutting blade length	160 mm
Shrub cutting area coverage	32 m ²
Grass shears cutting width	80 mm
Grass shears cutting performance	450 m
Approx. weight	550 g

SOWING SEEDS OF SUCCESS

To flatten the ground before sowing and pressing in the seeds after sowing, so the grass seed remains where it belongs.

YOUR ADVANTAGES

- | High power and cutting performance
- | Automatic chain lubrication
- | Chain brake and quick chain stop for maximum safety
- | Perfect ergonomics for stress-free work

CHAINSAWS

DOUBLE SAFETY

With the chain brake and hand protection bar with quick chain stop, the highest safety is ensured in any situation, for pleasant and accident-free working.

PERFECT HANDLING

Due to their balanced weight, AL-KO chainsaws not only fit perfectly in your hand.

EASY TO USE AND MAINTAIN

Automatic chain lubrication and the viewing pane on the oil tank make it easier to maintain the electric and battery chainsaws.

ELECTRIC CHAINSAWS

EKS 2000-35 electric chainsaw

- | Minimal weight, ensuring less strenuous operation
- | Overload protection in the event of overheating
- | Powerful and high-performance

WOOD SPLITTERS

EFFORTLESSLY SPLIT FIREFWOOD FOR WINTER

Extraordinarily and effortlessly convenient for keeping a firewood supply

Saves space thanks to its compact design

With our powerful motors, providing splitting force up to 6 tonnes, no log is too thick

SPLITTING FIREWOOD

Using wood splitters allows you to cut down sawn timber effortlessly into manageable blocks of wood. Once split, the wood should be stored in a dry, well ventilated place and should not be stacked too densely. Before the firewood can be burned, it should be seasoned for at least one year, depending on the type of wood, so that it will burn properly and generate a good amount of heat.

EXCEPTIONAL SAFETY

Hand protection, 2-handed operation, wood holding tool and wood supports on the sides make using our wood splitters not only incredibly safe – they also make working with them an absolute pleasure.

PERFECTLY ADJUSTABLE

An upper guard, rapid return of the splitting blade and an adjustable holder provide the foundations for exceptional productivity.

TABLE INCLUDED

The wood supports on the splitting table keep the wood in the centre of the machine. The split wood is pushed onto the splitting table and from there it is easy and safe to remove. You can even allow the wood to drop into a wheelbarrow or similar container.

WOOD SPLITTERS

LSH 370/4 wood splitter

NEW

- | Incredibly safe, with protective cover
- | Easy to use, with additional wood support
- | A powerful tool with high splitting force

LSH 520/5 wood splitters

NEW

- | Comfortable working height
- | Incredibly safe thanks to the protective cover
- | High splitting force
- | Sturdy, well-designed splitting wedge

LSV 550/6 wood splitters

NEW

- | Sturdy, torsion-resistant frame
- | High splitting force
- | Adjustable splitting length
- | Safe thanks to two-hand operation

SPARE PARTS

**OUR
EXPERTISE
IS IN YOUR
SAFETY
AND
COMFORT**

AL-KO Gardentech stands for the highest level of quality. For example, our products stand out with their impressive durability, even when they are in frequent use. However, wear and tear or repairs may require the replacement of parts. In such cases, you should always choose AL-KO genuine spare parts and accessories. Because top quality and guaranteed safety can only be expected from components which match the technical and quality characteristics of every AL-KO product down to the finest detail.

That's why, in Germany, most of the necessary genuine spare parts and accessories can be purchased at any time. This is a service which keeps downtimes for your equipment at a minimum. Moreover, using AL-KO genuine spare parts and accessories is the only way to ensure that all mutually optimised appliance components are at full functionality and to guarantee the high quality and reliability of the AL-KO product. Indeed, the product warranty is only effective, and in case of repair will only remain valid, provided AL-KO genuine spare parts and accessories are used.

Our AL-KO genuine spare parts have other benefits as well. Each improvement made to the series-produced products is conferred to the associated genuine spare parts. Whether

it's a simple screw or a sophisticated control board, all genuine AL-KO and solo by AL-KO parts are designed based on a wealth of expertise acquired through many decades of manufacturing prowess.

Our authorised service partners can also benefit from using AL-KO genuine spare parts and accessories. Components that always fit perfectly ensure short repair times and enable cost-effective repair jobs.

Safe, high-quality and always the right fit – using AL-KO genuine spare parts and accessories is always the perfect choice for repairs or maintenance, giving you a solid foundation for long-term and reliable use of our products.

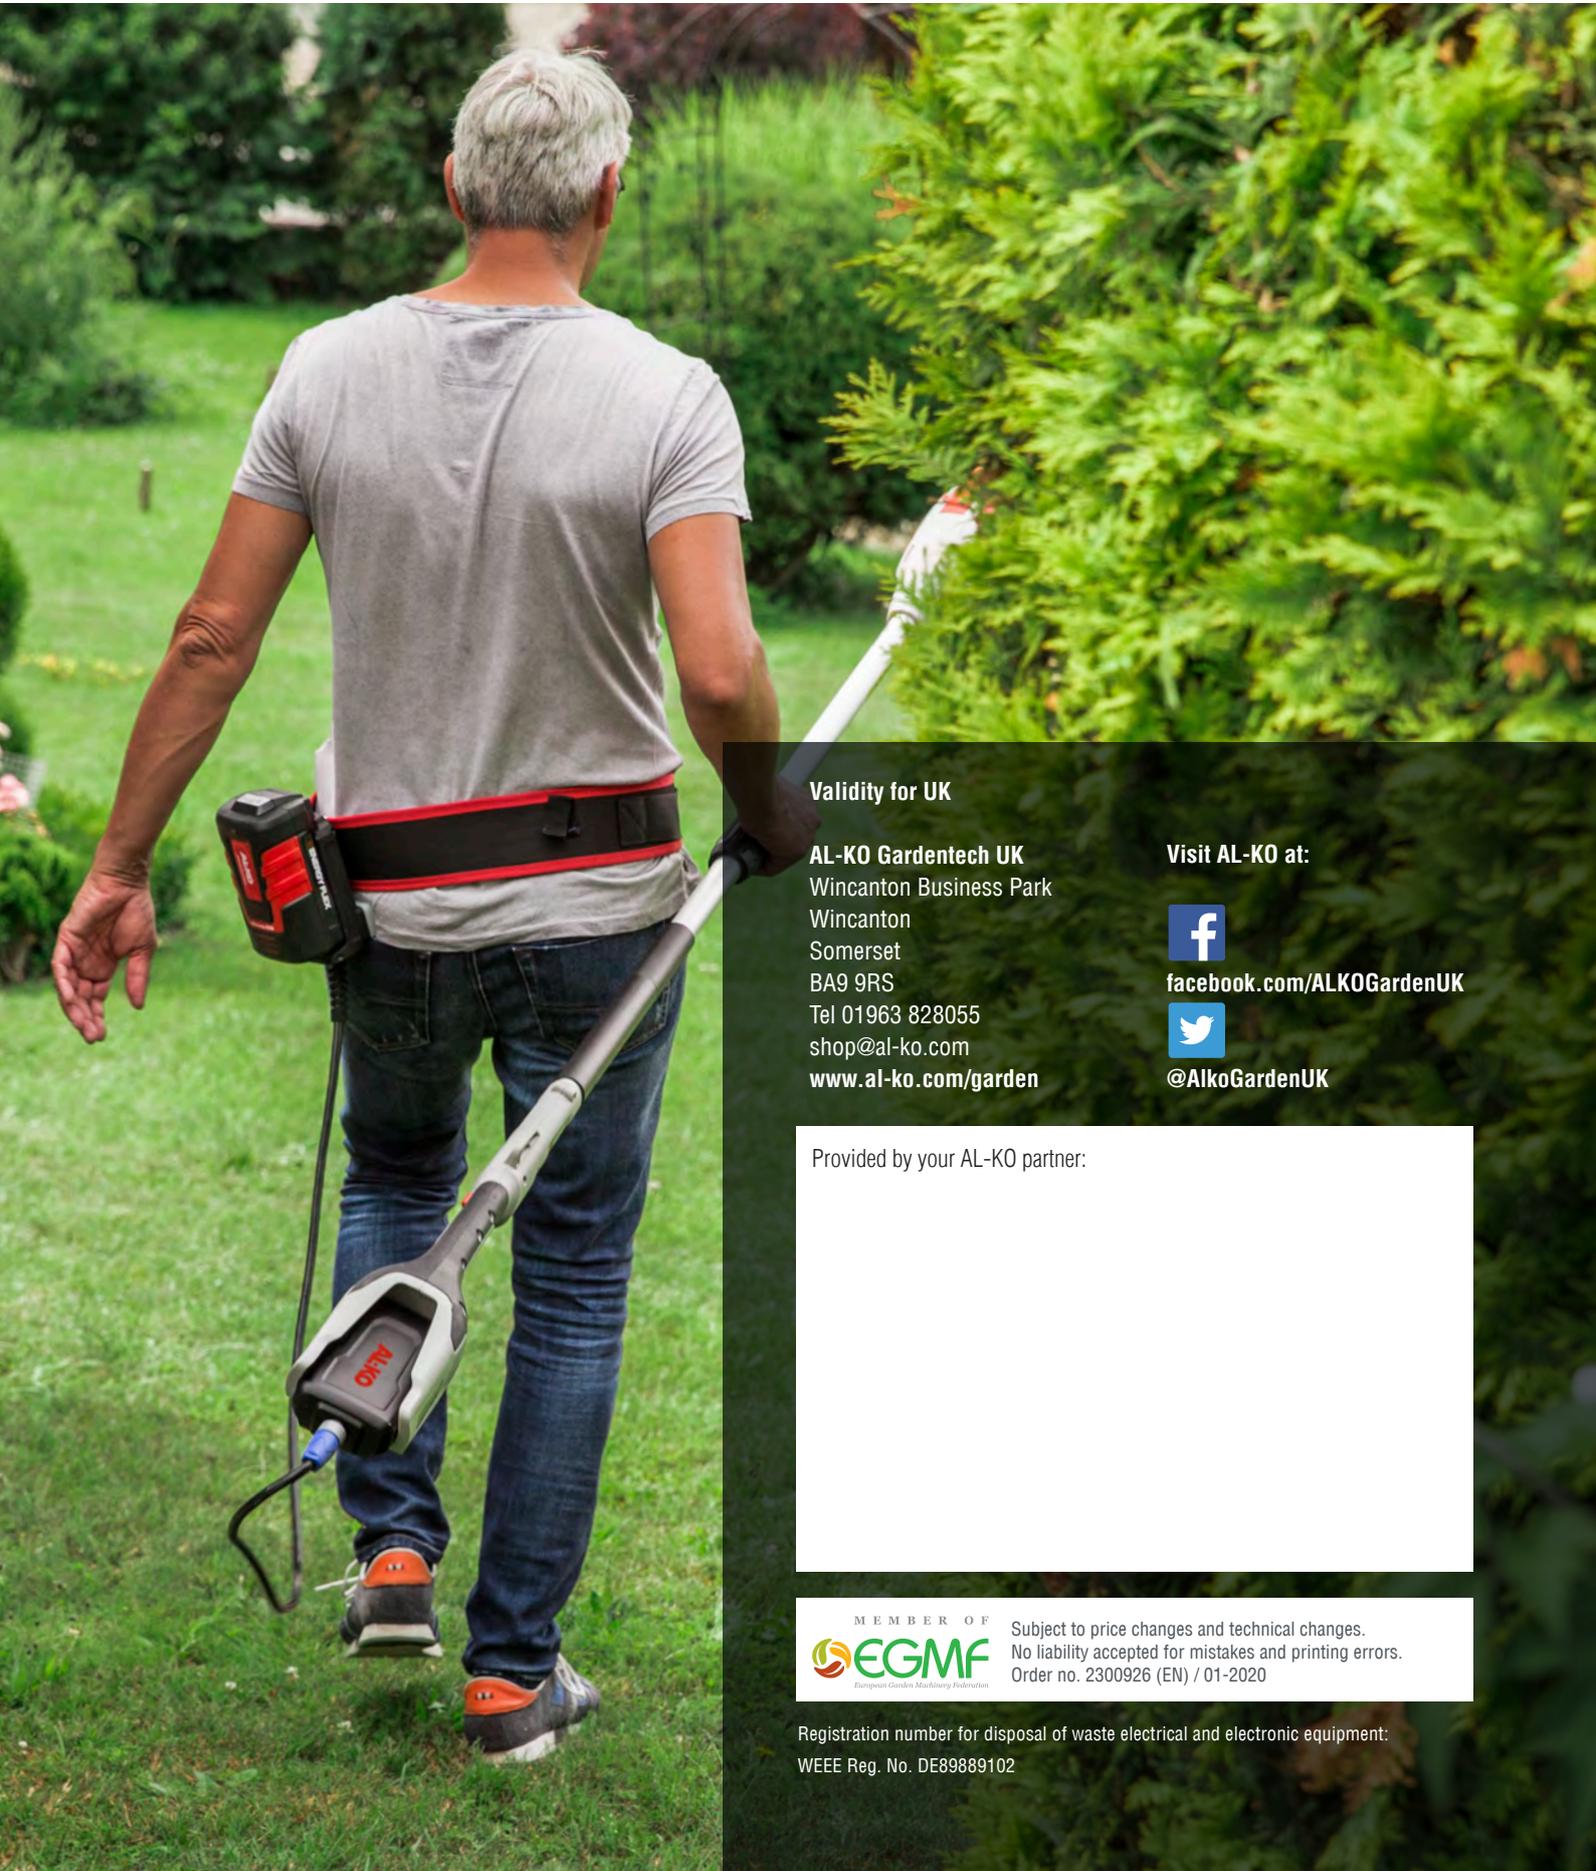

RRP = Non-binding price recommended by the manufacturer, including statutory VAT.
